

MALLARD

Coloring Page

Mallards are a common duck found throughout North America. They enjoy ponds and parks as well as other wetlands. Chances are if you have fed a duck at a park, you have fed a Mallard. Mallards have a green head, gray feathers and a black tail. Mallards are strong fliers, flying as fast as 55 miles per hour! Mallards generally feed off what is offered to them from humans. The standard quack of a duck is a female Mallard. The male Mallard makes a quiet
