

# PURPLE GALLINULE

## Coloring Page

Purple Gallinules are purple with greenish wings and a red bill with a yellow tip. Because of all their vibrant colors, they are considered one of the most colorful birds in North America. Purple Gallinules are found in the south-eastern region of North America. Their population has declined due to the draining of swamps but is still widespread in their range. They make their homes in fresh swamps, marshes, and ponds. Purple Gallinules eat plants, fruit, and seeds. They migrate south in the winter, most going to southern Florida.
