

ROSE-BREADED GROSBEEK

Coloring Page

Rose-breasted Grosbeaks are black and white with a bright red chest and thick bill. Rose-breasted Grosbeaks are found throughout eastern North America. Their population is currently stable and have no risk of endangerment. They make a happy song with sweet whistles. Rose-breasted Grosbeaks make their homes in orchards and groves and enjoy wintering in the tropics. Rose-breasted Grosbeaks eats insects, seeds, and berries. They migrate at night late in the spring and early in the fall.
