

YELLOW WARBLER

Coloring Page

Yellow Warblers are an all-around yellow bird with some light brown stripes on their chest. Yellow Warblers can be found throughout North America. Their population is stable and not at risk of endangerment. They make their homes in gardens, streams, and along swamp edges. Yellow Warblers have a distinct whistle. They feed on insects in willows, wet woods, and even by the roadside. Yellow Warblers migrate early in the fall.
